

OUR SERVICES AND SUPPORTS

Dental services

healthAbility

Leave with a confident smile

Good oral health is an important factor in maintaining overall health, so we offer friendly and accessible dental care to everyone in our community.

Our experienced team of dental professionals will provide your family with affordable, quality dental care. We are proud of the level of personalised service and quality dentistry that we provide to our clients.

Friendly and accessible dental care

We offer the unique combination of private and publicly funded dental care to ensure we can care for the community's varying oral health needs.

Our range of dental services include:

- General dentistry
- Cosmetic dentistry
- Preventative dentistry
- Restorative dentistry
- Children's dentistry
- Little Chompers: dental outreach education program
- Smile Squad

We speak your language

We understand that you may be apprehensive about visiting a dental clinic when your first language isn't English. We have bi-lingual dental professionals who speak Mandarin and Cantonese at our Box Hill clinic.

Ask us about arranging an interpreter for the language of your choice.

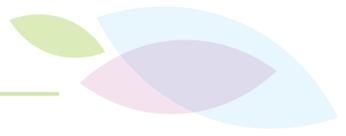

Check-up and clean package

If you haven't visited a dental professional in a while and are due for a check-up, this is a great package to discover what condition your teeth and gums are in.

For \$180 the package* includes:

- Dental exam
- Teeth cleaning
- X-rays
- Fluoride treatment
- A comprehensive oral treatment plan

**Does not apply to publicly funded dental services.*

General dental

Important oral health care

Healthy bodies need healthy teeth and gums, so we offer a broad range of general dental and emergency care to everyone in the community.

Our trusted general dental services include:

- Examinations
- Scale and clean
- Extractions
- Fillings
- X-rays
- Surgical removal of wisdom teeth
- Referrals to specialists

Cosmetic dental

Creating a happier smile

Cosmetic dentistry is dental work that improves the appearance of teeth, gums and/or bite. Our qualified dental professionals will focus on the improvement in dental aesthetics including; colour, position, shape, size, alignment and overall smile appearance.

We offer a range of cosmetic dental services including:

- Teeth whitening
- Veneers
- Crowns
- Invisalign

Preventative dental

Keep your beautiful smile

Seeing a dental professional regularly and taking proper care of your teeth is the best way to maintain good oral health and detect early any future problems.

We offer a range of preventative dental care services including:

- Fissure sealants
- Mouth guards
- Scale and clean
- Fluoride treatment

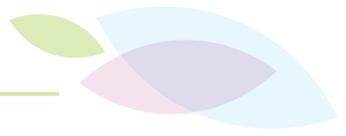

Restorative dental

Get your mouth back to full health

Restorative dentistry involves the diagnosis, prevention and treatment of common oral diseases such as decayed, chipped, cracked, discoloured teeth or even missing teeth.

We offer a range of restorative dental services including:

- Fillings
- Root canals
- Bridges
- Crowns
- Dentures

Children's dental

Developing good oral health habits

Helping children develop healthy habits to care for teeth while they are young is important. These habits can set the stage for good oral health care throughout their entire life.

Child Dental Benefits Schedule (CDBS)

Eligible dental services include:

- Examinations
- X-rays
- Cleaning
- Fissure Sealing
- Fillings
- Root Canal Therapy
- Extractions
- Partial Dentures
- Professional and dietary advice
- Providing tooth mousse and other dental products
- Specialist referrals

Did you know that we are a Child Dental Benefits Schedule (CDBS) registered provider?

The CDBS provides eligible children between the ages of 0-17, access to over \$1,000 in benefits per child for dental services over two consecutive calendar years.

Specialist services such as orthodontic or cosmetic dental and services provided in a hospital are not covered.

You do not need to register for the Child Dental Benefits Schedule. Eligible families and teenagers will get a letter from the Australian Government.

Children's check ups

Regular dental check-ups for children from two years of age are important to develop good dental health habits and prevent future dental problems. In fact, we encourage our youngest clients, to become familiar with the dental setting from as early as their first tooth erupting in the mouth. These examinations are done using a knee-to-knee approach, so they are close to you and comfortable the whole time.

Smile Squad

All students attending government primary, secondary or specialists schools in Victoria are eligible for free dental care at one of healthAbility's clinics under the Victorian Government-funded Smile Squad program.

Little Chompers

A dental outreach education program

Little Chompers is an education and screening program that is designed to teach children about healthy food choices and the importance of oral health.

Our friendly and experienced dental and oral health therapists visit local kindergartens, early childhood centres and schools to provide dental checks for children.

During the visit children will learn about oral health and healthy eating habits including:

- What to expect from a visit to a dental professional
- What is tooth decay
- The correct technique for brushing teeth
- The importance of regular dental check ups
- Making healthy food and drink choices

All dental checks are voluntary, and all participating children require parent/guardian consent. All participating children will receive some take home information for parents and a gift pack to reinforce the messages communicated during our visit.

Our dental fees

Everyone is welcome to use our dental service

We understand the cost of dental fees can sometimes prevent or deter people from maintaining good oral health. For that reason, we want you to know that we will be transparent with our fees.

Everyone can visit and use our dental service, we offer the unique combination of private and publicly funded dental care.

For more information on our dental fees, please visit our website healthability.org.au or scan this QR code
